

Technical Specifications

S.sensing[®] LeG

Technical Specifications

Power Source	100 - 240V DC International Adapter (Supplied)
Power Consumption	5.0 amps at 12V
Communication	Ethernet Ethernet to GSM adapter
Software	Cloud based monitoring account & API supplied with each device
Temperature Sensor	-20 to 50°C
Humidity Sensor	1 - 100% RH continuous
Operating Temperature	50 – 99 °F (10 – 37 °C), 10 – 95% non-condensing relative humidity
Storage Temperature	32 – 140 °F (0 – 60 °C), 10 – 95% non-condensing relative humidity
Enclosure	Internal Location - plastic, IP 10 rating. External Location - External enclosure with IP66 rating
Wall Mount	Includes integrated wall mount DIN Rail Mounting Option
Display	LCD display to indicate live detection status
Size	165 x 240 x 70 mm (w x h x d)
Weight	975g
