

Price increase for water and paper treatment chemicals in EMEA

Kurita Europe, a leading provider of technologies for water, paper and process treatment, is forced to increase prices from 5-20% depending on the product range and geographical region.

This price increase, which will be effective as of 1. January 2018 or as contracts allow, is unavoidable due to the highly increased raw material prices and the costs and the tense situation for transportation.

About Kurita Europe GmbH.

Kurita Europe GmbH, headquartered in Ludwigshafen, Germany, provides technologies for water, paper and process treatment.

Founded 1989, our team consists now of 550 employees at 12 various offices in Europe and Middle East, covering the EMEA (Europe, Middle East, Africa) sales area. With own production facilities we contribute to a reliable supply chain for our customers. Our own R&D centers, laboratories and pilot test plants allow us to develop continuously customized state-of-the-art technologies.

Kurita Europe is a subsidiary of Kurita Water Industries Ltd. headquartered in Tokyo, Japan. Founded in 1949, the Group has over 5,600 employees worldwide, generating a turnover of approximately 1.91 billion USD. Over 3,000 patents are proof of Kurita's innovative approach to a resource-saving consumption of water.

We are committed to highest ethical and social demands with a strong sense for fairness, transparency, integrity, safety and compatibility.
